

Kiln Dried Sand

Technical Data Sheet

PACK SIZE

Available in Maxipack and Bulk bags

DESCRIPTION

A dry, lime-free washed silica sand, which contains approximately 95% silica. The typical grain size is $\leq 0.5\text{mm}$.

USES

Specifically produced for brushing in between the joints of block paving to prevent lateral movement of the blocks.

COVERAGE

Approximate coverage depending on block type.

	Maxipack	Bulk bag
Small blocks	3m ²	110m ²
Large blocks	6m ²	220m ²

HEALTH AND SAFETY

As with all naturally-occurring silica sands, small amounts of respirable silica may be present.

If inhaled in excessive quantities over extended periods, respirable silica can constitute a long-term health hazard. Refer to full Material Safety Data Sheet for further information.

For cementitious mixes, follow health and safety advice detailed for cement.
